

## T3000 ACOUSTIC HOOD

### OVERVIEW

The slim-line T3000 Telephone Acoustic Hood is the ideal solution for limited space locations, or where a larger full size hood is not required.

The front is manufactured in the same way as the T2000, but with the flat MDF back panel is a more compact size.

Telephone can be mounted through the back panel, into a wall

Suitable for internal installations only.

Wall fixing pack supplied
